

Tran Quang Huy

Backend Developer | Node.js, Java, Cloud APIs

Hanoi, Vietnam | +84 902 775 318 | quanghuy.tran@example.com | github.com/tqhuy-dev

PROFILE

Backend Developer with 4 years of experience designing REST APIs, database schemas, authentication flows, and service integrations. Comfortable with Node.js, Java Spring Boot, MySQL/PostgreSQL, Redis, Docker, and cloud deployment basics.

EXPERIENCE

Backend Developer - BlueOcean Software

03/2022 - Present

- Developed API services for order management platform handling 80k+ requests/day with JWT authentication and role-based access control.
- Optimized slow SQL queries and indexes, improving key report load time from 11 seconds to under 2 seconds.
- Implemented CI pipeline with automated tests, lint checks, and Docker image build for staging releases.

Junior Java Developer - FPT Applied Technology Lab

07/2020 - 02/2022

- Built Spring Boot modules for customer profile, notification, and payment reconciliation services.
- Integrated third-party APIs for SMS, email, and payment gateway callbacks with retry and logging mechanisms.
- Wrote unit and integration tests for service layer and repository layer.

Software Intern - TechPlus Vietnam

01/2020 - 06/2020

- Assisted in building internal admin screens and basic CRUD APIs for inventory management.

SELECTED PROJECTS

Inventory Sync Service

Microservice syncing inventory from warehouse system to e-commerce channels using cron jobs, queues, and retry policies.

Auth Gateway

Centralized login, refresh token, permission checking, and audit logs for internal applications.

CORE SKILLS

- Node.js
- Express.js
- Java Spring Boot
- REST API
- MySQL
- PostgreSQL
- Redis
- Docker
- JWT/OAuth2
- AWS EC2/S3
- GitHub Actions
- Unit testing

EDUCATION

B.Eng. Software Engineering

Posts and Telecommunications
Institute of Technology
2016 - 2020

CERTIFICATIONS

- AWS Cloud Practitioner Essentials - 2023
- Oracle Java Foundations - 2021

LANGUAGES

- Vietnamese - Native
- English - Intermediate
